

New in 2006 the 2200 Pure Bay is truly a landmark in the long line of Blue Wave history. By integrating state of the art materials and methods into one design, we have created a boat that defines a class of its own. The 2200 Pure Bay's sleek, original hull design utilizes a 16° variable dead-rise on the running surface that allows it to flow flawlessly into style lines that encompass the boat from the inside out. We believe that having the most unique and attractive designs, backed by our proven family minded quality of manufacturing, will make this boat appeal to everyone, demanding envy and respect from all your fishing partners.

You can see that Richard and Steven Parks grew up around all aspects of boating. As co-owners of Blue Wave Boats they have dreamt of bringing you new and exciting bay boat designs. Now they are proud to introduce the new Pure Bay series, some of the highest quality and sleekest bay boats the market has to offer. Richard and Steven have committed themselves to continuing the Parks' family tradition, that began three generations ago, of producing the best possible boats that will provide you and your family years of enjoyment on the water. For Richard and Steven the 2200 Pure Bay is not just one of the best new boats on the market, but a dream come true.
